PBS Application, Assessment & Approval for Truck Trailer combination

Please note: PBS vehicle approval is usually expected to be issued 4 to 6 weeks after delivery of trailer. It can be delayed further depending on NHVR workload. The customer will be taking a risk if he is loading the truck/trailer to PBS masses, without possession of a PBS vehicle approval.

This price is based on individual Truck and Trailer.

Cost Breakdown.

- * \$3300 inc Gorski Design Engineering Cost Including Upgrades to PBS Specific Tyres / Design Costs and Calculations
- * \$3696 inc. Certification Cost allowance for external PBS certifier to attend Gorski Engineering site to inspect and complete paperwork.

If after calculations OD drawbar is required:

OD drawbar(Over Dimension) plate (if required) is usually expected to be issued 4 to 6 weeks after delivery of trailer or after registration number is available. It can be delayed further depending on NHVR workload. Technically, customer is not allowed to use the drawbar, until a modification plate is fixed.

* ADD \$1625 inc. OD Drawbar (section 87) including VASS certification. (may not be required on all builds subject to calculations)
